

Stay Interviews

Build trust and create a safe environment where employees are successful, engaged and want to stay.

Stay interviews are a critical component of employee retention that allows leaders to address key motivators that can turn disengagement around and equip employees to perform at their best.

Through collaborative learning, activities and in-depth discussions, participants will learn to apply key steps to conduct effective stay interviews. Participants will be empowered to overcome stay interview challenges, customize a Stay Interview Planner that they will use to conduct their first stay interview as well as organize and act upon the information they gather in their stay interviews.

Learning Outcome

Upon completion of this program, participants should be able to:

- ☒ Apply personalized, actionable strategies for effective stay interviews.
